

The Federal Communications Commission

Dear The Federal Communications Commission,

If tax revenue is needed, why must it be born by those least likely to be able to pay it. I use my wireless phone for safety, security and convenience. I am dissatisfied with proposed changes that would shift the percentages of tax collection, lessening what big businesses pay only to increase user fees for the general public. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Sincerely,

R. Myers
